

NRCS Registration:
Act5GNR529/293389/140/1087

Contents: 90g

Active ingredients:
Sodium Persulphate.....51%
Potassium Persulphate.....28%

WARNINGS:

- Handle with care.
- Could cause irritation to skin and eyes.
- Could cause fabrics to discolour.
- Not intended for internal use (ingestion).
- Store in a cool, dry place away from food and feed.
- Keep out of reach of children, animals and uninformed persons.
- Not recommended for disinfection of humans in spraybooths/tunnels.
- May corrode untreated mild steel or galvanized surfaces.
- Only use clean water when mixing ADI solution. Poor water quality (high acid content, high heavy metals etc.) may adversely affect the mixed solution efficacy and characteristics.

Although this remedy has been extensively tested under a large variety of conditions the registration holder does not warrant that it will be efficacious under all conditions because the action and effect thereof may be affected by factors such as abnormal climatic and storage conditions, quality of dilution water, compatibility with other substances not indicated on the label as well as by the method, time and accuracy of application. The registration holder furthermore does not accept responsibility for damage to surfaces, the environment or harm to man or animals or for lack of performance of the remedy concerned due to failure of the user to follow the label instructions or to the occurrence of conditions which could not have been foreseen in terms of registration. Consult the supplier in the event of any uncertainty.

PRECAUTIONS

Avoid eye contact.
Avoid prolonged contact with the concentrated product.
In case of contact with eyes, flush immediately with clean water for at least 15 minutes. If contact lenses are present in the eyes, only medical professionals should attempt to remove them.
Wash hands thoroughly with soap and water after use and before smoking, eating or drinking.
Triple rinse the empty container with a volume of water equal to a quarter of that of the container.
Never use the container for any other purpose.
Store at room temperature.
Keep out of direct sunlight.

DIRECTIONS FOR USE (Use only as indicated)

Application rate of mixed solution: 20ml per 1m ²
ALWAYS pre-clean heavily soiled items and surfaces.
pH at recommended dilution: 2,35
Only use on hard non-porous surfaces such as plastic, vinyl, linoleum, glass, plated or stainless steel, aluminium, chrome, glazed porcelain, glazed tile, laminated surfaces, etc.
ADI has a mild ozone-like odour with a slightly salty taste. After application of ADI no residue is left behind on surfaces.
When used as directed ADI has an Oxidation Reduction Potential (ORP) of more than 950 mV for 7 days.
Once diluted at the correct dosage, the diluted solution has an effective shelf life of 7 days in a closed container.
Expiry Date: See sachet – (24 months after date of manufacture).
Keep container closed when not in use.
Ensure application equipment nozzles are plastic, stainless steel or aluminium.
